Select all answers that are true for this XML layout when displayed on the screen.

```
<androidx.constraintlayout.widget.ConstraintLayout
    android:layout_width="match_parent"
    android:layout_height="match_parent">
    <TextView
        android:id="@+id/textViewA"
        android:layout_width="wrap_content"
        android:layout_height="wrap_content"
        android:text="A"
        app:layout_constraintStart_toStartOf="parent"
        app:layout_constraintTop_toTopOf="parent" />
    <TextView
        android:id="@+id/textViewB"
        android:layout_width="wrap_content"
        android:layout_height="wrap_content"
        android:text="B"
        app:layout_constraintEnd_toEndOf="parent"
        app:layout_constraintTop_toTopOf="parent" />
</androidx.constraintlayout.widget.ConstraintLayout>
```

- ☐ TextView A appears vertically stacked on top of TextView B.
- ☐ The starting edge of TextView A is aligned to the starting edge of the parent view.
- ☐ The starting edge of TextView B is aligned to the starting edge of the parent view.
- ☐ TextView B is horizontally and vertically centered within the parent.
